

## Savita Bhabhi- finally some Indian Manga porn

If you haven't seen it yet- you just have to! Its like an online illustrated pornographic answer to "Goodness Gracious Me". [Savita Bhabhi](#) been doing the rounds when it arrived in my Mr.'s inbox from the usual suspects, and perhaps some sense of incredulity that it in fact, actually exists, prevented me from sticking it up- but as all and sundry seem to have seen it by now (that is to say every male in India) I may as well post it-

As usual it has elicited the standard moral uproar – media as corrupting influence upon the youth of our nation etc. -

### [GreatBong:](#)

A new menace is here, an insidious agent of malignancy that creeps silently into your bedrooms (and yes even offices when the boss is not around). Assuming the form of electron streams, it activates pixels on your computer screen with certain poisonous RGB values which, before you know, sap you of your morals, your humanity and also more than a bit of your energy.

As articulated beautifully by an outraged Netizen, a person who suggests the CBI to step in to arrest the content creators of the site.

In my opinion this site is more dangerous than a normal adult site since it targets young Indian audience and degrades women.

I agree. Most normal adult sites do not target younger audiences and depict women as fully-rounded individuals with feelings as opposed to just a composition of attractive body parts.

There appears to be some sort of mystery regarding the hidden identity of the two guys who invented Savita Bhabhi and her website, and suspicious speculation regarding whether or not these guys are from India. It seems like the curiosity surrounding this suggests that for most people a joke cannot stand without clarity about the ethnicity of the comedians. If they are white guys then it may mean that a potentially self-reflexive parody of Saas-Bahu middle class morality combined with fresh wank material- becomes contaminated suddenly by the gaze of two white cyber geeks- for the sensitive patriotic wanker its like the moment when you realize that sexkitten69 is really an old pedophile named Edgar. And the flag goes suddenly to half mast at the thought of

yet another diabolical act of cultural appropriation- which invariably brings out the "older brother syndrome" in even the most testosterone poisoned of patriots-

(she may be a toon but she's still our Bhabhi and only we get to fantacize about her cup size you bloody Caucasian hemorrhoid)

here's a link to an article on it with [Teheka](#).

Savita Bhabhi is growing to be a phenomenally popular pornographic comic strip. It has grown solely by word of mouth to 3911 registered users in little over a month since its inception. The lead character has been drawn with every Kserial bahu trapping firmly in place: the dull gleam of a mangalsutra, sindoor forming a bright contrast to long dark hair parted chastely down the middle.

The bhabhi angle is a clever one. It combines an astute reading of the Indian sensibility with the ability to poke it in the eye. Graphic novelist Sarnath Banerjee is writing a book tentatively titled Libido, that will include factofiction tales of sexuality in India. He says, "Writing good pornography, or erotica, needs rigour and an understanding of humanity. You are an anthropologist looking at socio-psychology." And Indians have a head start at being creative here since, Banerjee says, "You have to be repressed to write good pornography. For me, I was fascinated when I saw these prostitutes in Amsterdam, coming as I did from the usual anal middle class and its protected environment where sexy was Ms Peters, the geography teacher."

The message boards on the website are rhapsodic in their unanimous approval of this venture by Messrs Deshmukh, Dexstar, and Mad. (Deshmukh writes the scripts while Dexstar and Mad do the artwork and design). One is curious about the identities of this suspiciously anglicised sounding group. From the message boards we glean that the animators are happy to read unsolicited scripts written by fans but that they have to be in English as they don't understand Hindi. Given that the context within which they are trying to operate is making it hip to be Hindi, this is curious. On the one hand, their work seems meant for mass consumption by people who read bhasha erotica; on the other, it makes fun of the stereotypes those brigades enjoy.

On the subject of repression- Sarnath makes an interesting point- reminds me of a certain friend who used to frenetically draw deranged pornographic pictures as a kid to cope with the monotony of small town living and the occasional erotic encounter with the bearded version of Mrs. Robinson or the fat girl next door. And I think the whole anthropological side of it is definitely there too- if you want to get an insight into another culture- watch their porn first- if Savita Bhabhi gives you a sense of where incest prohibition in a large extended families creates a country full of men who desperately want to gouge their eyes out or screw their cousin sisters (perhaps the later before the former) then Japanese Hentai gives you a sense that rape is pretty much the way romance is imagined, after the chocolate and roses have been put aside- from various accounts through the testosterone grape-vine- Japanese women feel that they are required to scream throughout the experience and cry if possible. charming.

Dear reader,

I feel that though there should be more of an effort to prevent younger kids from seeing porn I feel that porn by itslef is not degrading to our society. Sex is a very natural thing to any human being. Now you show fantasies and impossible situations, its just a story. If you make an issue out of it you are just giving it more power and attention than it requires. Now if you ban savita bhabhi, how will you do it? If u shut down the site another site like it will pop up. Personally I feel porn is ok for the adult viewer and since we live in a free country let people say or do what they want. Your reactions means that they are getting to you. You can say whatever you want but remember your silence is not your weakness..

I wouldn't call it "manga" ... it's done more in the likeness of Tinkle and those other old-school Indian comics. Manga has a very different style in artwork, style and presentation.

Anyway, from the few strips I have seen, it's pretty decent work. I do have a problem with a couple of issues, though, not in the least the one scene

where was protesting a man's sexual groping, but eventually gave up resisting and let him have his way. Such representations can instill a subconscious justification for rape, as they positively portray the "no" actually means "yes" and "she may resist, but she really wants it" cliches. The idea that a woman's resistance can be overcome with a little bit of nipple-poking and vulva-stroking, and that all a protesting woman needs is further sexual intrusion, is personally offensive and socially dangerous. Anyway, a willingly sexual woman is far more arousing than a woman who is unsure (except to some perverts who like the idea of "conquering" women).

What can I say. An excellent piece of work. I think alot of boys fatasies have come in cartoon form. Its basically what 95% of the Indian-Pakistani males are thinking and fantasising about. According to wikipedea 80% of siblings have experienced some sort of incest. People will never admit it but they will at somepoint thought about thier aunty or uncle, or sister or sister-in-law in a sexual way. But I agree with SensibleIndianGuy. You can seduce a woman, no problem, however if she insists strongly and says no then you MUST back off. It's only pleasing for the man if the woman wants it too. Forced sex is a turn off! We know women like to play hard-to-get but men need to draw a line and if the woman is totally against it then let her be.
